| Average cost per week,       |      | \$3.10                 |
| Number of tramps,            |      | 96                     |
| Estimated cost of tramps,    |      | \$19.20                |

---

The increased average cost of the Inmates is due to the necessary repairs made during the year. New radiators had to be put in to replace the old sheet iron ones,, which were rusted out and worthless. Other needed repairs have been made in the house and barn. The old piggery has also been put in good condition. A water supply, which has been needed for a long time for the house and barn has been put in and running water is now available for both. The cost of the plant is as follows.

## COST OF WATER SUPPLY PLANT.

# WARRANT FOR ANNUAL TOWN MEETING.

---

BRISTOL, SS.

*To either of the Constables of the Town of Easton in the  
County of Bristol.*

GREETING:

In the name of the Commonwealth of Massachusetts you are directed to notify and warn the inhabitants of the Town of Easton, qualified to vote in elections and town affairs, to meet in the Town Hall, in said Easton, on Monday, the second day of March next, at twelve o'clock noon, then and there to act on the following articles:—

ART. 1. To choose a Moderator to preside at said meeting.

ART. 2. To see if the town will accept of the reports of the Selectmen, Assessors, Overseers of the Poor, Treasurer, Road Commissioners, School Committee, Superintendent of Schools, Board of Health and Tree Warden.

ART. 3. To choose all necessary town officers for the ensuing year.

ART. 4. To vote "Yes" or "No" by separate ballot upon the question, Shall licenses be granted for the sale of intoxicating liquors in this town the ensuing year?

ART. 5. To raise such sums of money as may be necessary to defray the town charges for the ensuing year and make appropriations for same.

ART. 6. To see if the town will raise and appropriate money to pay for conveying such scholars residing outside of District No. 7 as may wish to attend the High School at North Easton.

ART. 7. To see if the town will authorize the Treasurer to borrow money in anticipation of taxes.

ART. 8. To see if the town will accept the list of jurors presented by the Selectmen.

ART. 9. To see if the town will vote to raise and appropriate the sum of one hundred and fifty dollars for Memorial Day, to be expended under the directions of Post 52, G. A. R.

The polls will open at 12 o'clock noon, and may be closed at 4 o'clock P. M.

# CARE AND MAINTENANCE OF SHADE TREES.

## TREE WARDEN'S REPORT.

### EXPENDITURES:

|                                                         | \$480 16 |
| Appropriation .....                                     | \$500 00 |
| Received for spraying trees .....                       | 20 10    |
|                                                         | <hr/>    |
|                                                         | \$520 10 |
| Unexpended balance .....                                | \$39 94  |

The most important work during the past year has been the spraying of the elm trees, owing to the attacks of the elm leaf beetle. As the balance of the annual appropriation was insufficient to pay for the whole of this work Miss Mary S. Ames very generously contributed \$100, that the spraying might be done thoroughly. In all, over 2,500 elm trees were treated, many of them having two, three, or four applications. The damp summer handicapped the work to some extent, but we were enabled to keep the pest in check. The large owners of elm trees in town settled their accounts separately, while a

number of the smaller ones have paid the Town Treasurer for spraying done.

It was most encouraging to see the interest manifested in the preservation of shade trees by so many owners. Where all will help a little it materially lightens the work of the Tree Warden, and we sincerely trust that all owners, and lovers of shade trees will aid the work during the coming season as best they can. The elm leaf beetle having now obtained a secure foothold in southeastern Massachusetts, it will be necessary to make an annual appropriation for spraying purposes. Practically all towns and cities have recognized the necessity of making this provision. Admitting that the planting of shade trees is a public matter, their care should also be a public duty. With intelligent supervision the annual expenditure of a comparatively small sum will keep our trees green throughout the summer. Neglect for two or three successive years would mean the certain death of many of our best street trees.

A section (No. 5) of the tree law of Massachusetts which is often disregarded, and is violated usually because of ignorance of its existence, and because trees offer themselves as ready sign-posts and bill-boards, reads as follows:—

“Whoever affixes to any tree in any public way or place, a playbill, picture, announcement, notice, advertisement, or other thing, whether in writing or otherwise, or cuts, paints, or marks such tree, except for the purpose of protecting it, and under a written permit from the tree warden, shall be punished by a fine not exceeding fifty dollars for each offence.”

As few of our town trees possess an advertising value of fifty dollars, we hope this simple notification may help to prevent any infringement of the law.

Some 200 young street trees were planted during the last year. Some thinning was done on Main Street where maples had become very crowded. Most of the young street trees require judicious pruning, and the removal of dead limbs from

many of the large trees needs attention, a few dead trees, one or two of considerable size, are now somewhat of a menace, and should be cut down as soon as possible.

We would recommend the appropriation of \$700 for the care and maintenance of shade trees during 1903. We estimate that it will cost about \$500 to save our elm trees from defoliation, and the bulk of the balance should be used for necessary pruning.

Some of our neighboring towns and cities are having serious trouble with the gypsey moth, brown tail moth, and other pests. It is possible some of these may reach our town, and prompt measures must be adopted against them if they appear. May we respectfully ask any resident in our town who may notice any suspicious pests to at once notify the Tree Warden? And may we also ask every householder to pick off, or destroy in some way, all eggs, larvæ, or moths on shade trees on their own grounds, and if time or opportunity permits, on any shade trees near their fence?

Respectfully submitted,

WILLIAM N. CRAIG,

*Tree Warden of Easton.*

# REPORT OF THE BOARD OF HEALTH.

---

NORTH EASTON, January 26, 1903.

*To the Citizens of Easton:*

The Board of Health respectfully submits the following report. The expenditure for the year was \$1,553.55. Of this amount nearly \$1,000 was required to contend with diphtheria, which became epidemic during the late summer and autumn months, their being a total of twenty-five cases with one death in this period.

Owing to the locality and conditions under which some of the cases appeared the Board deemed it absolutely necessary that nurses be employed, but the disease became widespread by disregard of quarantine and sanitary methods. Although this plan proved efficient in arresting the spread of the disease it has entailed an expense of nearly \$2,900 the past two years.

In view of this fact and the benefits conferred by such an institution the Board earnestly recommends the establishment of a small contagious hospital, where such cases may be treated in a more economical manner, and with a greater degree of safety to the community.

From complaints and inspection the Board has found a most unsanitary disregard for the disposal of sewerage matter, with no apparatus for the purpose.

To facilitate this the Board purchased at a cost of \$500.28 a suitable apparatus for odorless excavation and carting of sewerage. At present this is in charge of J. J. McCarthy with an area of land for sewerage reception at the Fred Pack-

ard lot on the northerly side of Main street. The Board urgently recommends an improvement in the lighting and ventilation of the rooms occupied by the lower grammar grades, as at present they are in an unhygienic condition.

Disease thrives midst unsanitary conditions and we advise stricter attention to cesspools, their construction, a prevention of overflow, and proper cleaning, also to dry earth closets which should be properly fitted, covered and periodically emptied, otherwise they become a menace to the health and comfort of the community.

The death rate was 22-10%, eighty-eight deaths having occurred, while one hundred and six births were recorded.

There have been but two cases of typhoid fever, a tribute to the excellence of our water supply. Scarlet fever appeared in ten isolated cases.

#### CAUSES OF MORTALITY DURING THE YEAR.

UTENSILS ON HAND.—(1) Oil stove, (2) porcelain wash bowls, (2) porcelain pitchers, (1) fountain syringe, (1) cot bed, (3) cooking pans, (1) cup and saucer.

We desire to state our appreciation of the untiring efforts of the district nurse, Miss Mary E. Cole, whose patient kindness to the sick and needy, her instruction for care of the sick and zeal in her work, claim the highest appreciation.

A set of the Rules and Regulations of this Board has been prepared, and copies posted throughout the town, which, we trust, will be in accord with the best sentiments for the health of the inhabitants.

Respectfully yours,

FRANK SEXTON, *Chairman.*

JOHN McFARLAND, *Sec'y.*

GEO. C. BELCHER.

*To the Citizens of Easton:—*

In the year 1900 there were 151 known and marked soldiers' graves in town. This number included the graves of soldiers of all the wars. The members of Camp 118, Sons of Veterans, believed there were many more graves not designated, and appointed a committee to investigate the matter. As a result of their labors the following number of graves were located.

|                                    |     |
|------------------------------------|-----|
| Of the French and Indian Wars..... | 4   |
| Of the Revolutionary War.....      | 54  |
| Of the War of 1812.....            | 42  |
| Of the Civil War.....              | 105 |
| Of the Spanish War.....            | 1   |
| <hr/>                              |     |
| Making a total of.....             | 206 |

---

At the last annual Town Meeting we asked for an appropriation of \$50, to place markers at the graves of Revolutionary soldiers; which was granted. Of this amount we have expended \$49. We have placed 48 markers at the graves of Revolutionary soldiers, costing \$1 each. We thought the amount of the appropriation would be sufficient for all the graves, but in order to complete this work 6 more markers will be required, costing \$6.

We believe the graves of the soldiers of the War of 1812 should also be marked. This would require 42 markers at 40 cents each, amounting to \$16.80.

We find that the graves of the soldiers of the Civil War are sadly in need of uniform and suitable markers. We would ask, accordingly, for an amount sufficient to properly mark each Union and Spanish War soldier's grave. 105 markers

for Civil War soldiers at 25 cents each would amount to \$26.50; and one Spanish War marker at 50 cents; total, \$27. To this add the additional Revolutionary War markers, \$6, and the War of 1812 markers, \$16.80. Thus it will require \$49.80 to mark each grave in town in a permanent and suitable manner.

The committee further believe that to properly complete this work, bronze tablets should be placed at all soldiers' graves having no headstones. Of these there are 45. These tablets would cost \$1 each, making an additional cost of \$45.

We believe that with an appropriation of \$100 we can so complete this much needed work that every soldier's grave in town shall have a suitable marker, and either a headstone or a permanent bronze tablet.

This can be done better now than at any subsequent time, and be of a uniform and permanent character.

CHAS. W. HILL,

M. H. WILLIS,

A. H. FULLER,

*Sons of Veterans Committee.*

EASTON, MASS., December 31st, 1902.

## ANNUAL TOWN MEETING.

MARCH 3, 1902.

---

William N. Howard was elected Moderator, by ballot.

The reports of town officers were accepted.

Town officers for the ensuing year were elected in the usual manner, previously limiting the number of constables to the five having the five largest numbers of votes.

On the question "Shall licenses be granted for the sale of intoxicating liquor in this town?" the vote was "No" 240, "Yes" 112.

The following sums of money were voted :

For support of poor, sixty-eight hundred and fifty dollars.

For soldiers' relief, eight hundred dollars.

For town officers' bills, two thousand dollars.

For incidentals, two thousand dollars.

For discount on taxes, twenty-eight hundred dollars.

For repairs of roads and bridges, snow bills and tools, sixty-five hundred dollars.

For tree warden's department, five hundred dollars.

For school purposes, twenty-one thousand dollars.

For Memorial Day, one hundred, fifty dollars.

For Highland street, four hundred, forty-nine dollars and seventy-five cents.

For markers for soldiers' graves, fifty dollars.

For street signs, one hundred dollars.

For state and military aid, nineteen hundred dollars.

The Treasurer was authorized to borrow money as needed in anticipation of taxes, with approval of Selectmen.

The list of Jurors as presented by the Selectmen was accepted, after rejecting the name of Timothy J. Cramer.

The Selectmen were instructed to take proper action in regard to five cent street railway fares.

It was voted to raise and appropriate five hundred dollars to place curbing around the soldiers' monument; the work to be done under direction of the Road Commissioners.

It was voted to accept and establish as the Town Seal the design offered by the Selectmen, viz: The name and date of incorporation of the town in a circle, with engraving of the soldiers' monument in the centre.

It was voted that the Moderator appoint a Finance Committee of twelve, to which shall be added as members *ex officio*, the chairmen of the Selectmen, School Committee and Road Commissioners. Appointed on this committee were Oliver Ames, D. F. Buckley, William Borg, David B. Tinkham, Willard K. Goward, Geo. C. Belcher, J. Henry Hurst, Fred E. Gifford, J. J. O'Connor, Andrew B. Anderson, John Baldwin, and Edw. R. Hayward..

It was voted that the balance unexpended of the \$1,000 deposited by the Easton Street Ry. Co., as a guaranty, be paid back when said railway is in operation and the road-bed and track is in a condition satisfactory to the Selectmen and the Road Commissioners.

It was voted that the next Annual Town Meeting be opened at twelve o'clock noon.

It was voted, upon motion of D. F. Buckley, "That all existing indebtedness (to close of year 1901) be paid out of the general balance in the town treasury and that this balance, or so much of it as may be necessary, be appropriated for this purpose; and that none of this deficit of any description be charged to the appropriation of this year.

The meeting was dismissed.

## STATE ELECTION, NOV. 4, 1902.

The whole number of ballots cast in the town was six hundred and ninety-five, and they were for the following named persons:—

GEO. G. WITHINGTON, *Treasurer.*

## AUDITOR'S REPORT.

---

The subscribers, Auditors of the accounts of the town of Easton, for the year ending December 31, 1902, have examined the accounts of Geo. G. Withington, its treasurer, and have found the same correctly cast and properly vouched, and the treasurer has verified to us that the cash balance of \$5,510.82 due from him to the town, is in his possession.

WILLIAM J. TWOHIG,  
OTIS E. SPOONER,

*Auditors.*

## REPORT OF THE SCHOOL COMMITTEE.

---

*To the Citizens of Easton:*

We herewith submit our report for the year 1902, and also call attention to the report of the Superintendent of Schools.

|                                                                            |       |
|----------------------------------------------------------------------------|-------|
| The number of pupils of all ages enrolled in the School Registers is.....  | 1,094 |
| Number between the ages of seven and fourteen..                            | 642   |
| Number over fifteen years of age.....                                      | 90    |
| Number under five years of age.....                                        | 81    |
| Number of children in town between the ages of five and fifteen years..... | 923   |
| Number attending the High School.....                                      | 125   |

We ask that you raise and appropriate the following amounts for the support of schools for the year 1903:

|                                                  |          |
|--------------------------------------------------|----------|
| For salaries, fuel, and care of buildings.....   | \$17,300 |
| “ text books, furniture, and transportation..... | 2,200    |
| “ repairs .....                                  | 1,000    |
| “ supplies and sundries.....                     | 1,000    |
|                                                  | <hr/>    |
|                                                  | \$21,500 |

We have enlarged the schoolhouse at the Centre, and this year must rebuild the schoolhouse at South Easton. It is a question whether it will not be better to remove the old building and erect a new one to meet the requirements of modern ideas, and large enough to take care of the increasing population, than to remodel the old building. The section of the town where this building is situated is growing, and as most of you are conversant with the character of the present building, we ask you to consider this question when making your appropriations.

The amounts we have asked for above are not large, and considering the increased cost of all kinds of fuel, we may come short of funds before another Town Meeting. Therefore we think it wise to ask you for \$1,000.00 more than appears above, the same to be applied where necessary to help out.

Respectfully submitted,

WILLIAM H. AMES, Chairman,  
D. F. BUCKLEY, Sec.,  
L. S. DRAKE.

## FINANCIAL STATEMENT.

---

Fortunately this year we have quite a large balance remaining. One year ago our coal for the entire year was bought and the bills for the same paid. This year the fuel necessary for all the schools except the High School from now until the end of the year, must be provided for at the exceptionally high prices prevailing. To meet this condition will call for what extra balance we show. Teachers' salaries, fuel, janitors' pay and other necessary running expenses for January and February call, each year, for over \$4,000.

The closing of the accounts for the year 1902 shows the School Department of Easton with practically no outstanding bills.

1902.

## SUPERINTENDENT'S REPORT.

---

*To the School Committee of Easton:*

I hereby submit, for the year 1902, my third annual report, and the seventeenth in the series rendered by the Superintendents of this town.

In a town like ours there can be only little changes and no startling revolutions; still it may be said that a constant improvement is manifest along almost every line of our work.

Improvements come rather slowly, as a rule, and certainly one ought to feel, if not satisfied, encouraged as long as the general trend of every movement is in the right direction and points to better things.

A few changes in our teaching force have been made this year. Mr. M. J. West, after two years of faithful work in connection with the Commercial Course, was called to a district superintendency. That he will be successful in this new field is almost certain, as he is admirably equipped for the work. Our best wishes go with him.

Miss A. J. Fairchild, after several years of conscientious service in connection with our High School, resigned at the close of the last school year. She is now devoting herself to literary pursuits, and it is the earnest wish of a host of friends that success may attend her in her chosen vocation.

Miss Lucy E. Keith, who had demonstrated her ability as a teacher in the Poquanticut district, resigned last June. This step was a source of regret on the part of the school officials. Her position was filled by the transfer of Miss Mabel

Hunt from the Furnace School, where she had successfully taught for a number of years.

In filling the vacancy caused by the resignation of Mr. West the Committee were exceedingly fortunate in securing the services of Mrs. Isabel S. Skinner, who has had a wide experience in commercial work, and is proving herself admirably adapted for this particular position.

Miss Fairchild's successor is Miss Mary G. Woodfin, a graduate of Radcliffe, who, already, has shown her marked ability as a teacher, and successfully passed the experimental stage.

It is the fixed purpose of those directly responsible for the advancement of our High School to keep the standard constantly at the highest attainable point.

The courses now offered to the pupils are sufficiently broad to fit for college, business and helpful citizenship if its provisions can be carried out intelligently with thoughtful and careful application.

Work is the everlasting watchword in school, without which the student life will prove worse than a failure.

In our Commercial work, notably, the closest application is necessary if one is to prove himself worthy to receive the diploma given for this course. The one who has pursued it indifferently will demonstrate the fact in a very short time. Only careful grounding by long and patient practice can meet the increasing requirements of business. In a word, this is largely a course of doing which gives at a glance the proficiency of the doer.

From a careful consideration of its work I am sure we have every reason to take a hopeful view of the future of our High School. Mr. Tirrell the Principal, speaks as follows for himself:

"The school, as a whole, is doing satisfactory work, and the Commercial Course, as mapped out in 1901, is proving sat-

isfactory to both teachers and pupils. Mrs. Skinner, who succeeded Mr. West, has taken up the work admirably, and her work with the Commercial classes has been of the very best quality. Miss Woodfin, who succeeded Miss Fairchild, has proven herself a superior teacher and her work has been satisfactory to a high degree.

In one particular I find our pupils sadly deficient: namely, in reasoning power. In Geometry, Algebra, Physics and other subjects in which are given problems which require sound reason, they do not seem to be able to do the work expected of pupils of their age. The question has often arisen in my mind as to the reason for this deficiency. Is it in the lack of drill in Mental Arithmetic or is it a fault of the method used in the lower grades? Whatever the cause, that deficiency exists in pupils entering our High School, and we find it a very difficult matter with which to contend.

Punctuality, also, is a quality not properly observed by our pupils. Hardly a day passes but we have from three to ten pupils tardy, not counting those who come by coach and car. That this is entirely uncalled for is evident to all, and if parents would examine the monthly reports more carefully, it seems as if, with their co-operation, this evil could be checked.

In this matter of the monthly reports, I wish also to make a further suggestion. Do the parents examine them carefully, or do they give them a hasty glance, affix their signature, and then dismiss the matter with no further thought? These reports, made out by the teachers with great expenditure of time and effort, should show to the parents who give them careful attention the habits of work which their child is developing; whether he is developing into a careful, painstaking individual, or into a careless, shirking pupil. The teachers are always watching for these tendencies, but the efforts of teachers alone cannot always counteract tendencies in the wrong direction. It is the duty of parents to co-operate with the teacher, and

these reports are sent in order that that co-operation may be made easier for the parents, but only too often it seems as if they failed to accomplish the desired end.

Some time in the near future, if our school is to take rank with schools of the same size in this State it will be necessary to increase our teaching force. If you examine the Report of the State Board of Education, you will find hardly a school of the standing which we wish our own to attain, where they do not have from one to three teachers more than in our own. The teacher who is obliged to expend nerve energy in hearing classes of from twenty-five to forty pupils, or a teacher who is expected to teach a class every moment of the school period, is not a good investment for the town. Each teacher of our school should have at least one spare period each day in which to look up delinquents and to attend to special cases. The principal, also, should have time to keep in close touch with the classroom work of his assistants, without taking time from his own classes. These 'spare' periods, so called, but really the busiest of the day, I have found to be the most valuable of all to the school and to the individual pupil, and as our course of study becomes more operative, it is more and more difficult to accomplish this with our present teaching force.

I have attempted, in a limited way, to introduce the Laboratory method in Physics, but unforeseen obstacles have prevented my carrying it out as I should like. In the near future I hope to be able to carry it on more successfully.

In closing I wish to express my thanks to you, and through you, to the School Committee, for the hearty co-operation which has been given me in the conduct of the school."

In regard to the other schools throughout the town, it is a pleasure to say that all are moving along easily and pleasantly and that the teachers are doing their best to make their work eminently successful. There seems to be the right esprit de

corps, without which it is impossible to make satisfactory attainment in school work.

Miss Hattie V. Stone and Miss L. S. Cavanagh exchanged places the beginning of the fall term, to the marked advantage of both.

The time is at hand when the town of Easton must begin to make a careful study of its school conditions, especially with reference to the lighting, heating and ventilation of its buildings. It seems now that every expenditure should look to permanent improvement and along the lines indicated above.

One of the old heaters at Unionville School building was replaced recently by a "Volunteer" with increased power. This has kept the rooms well heated and ventilated even in the coldest weather—an impossibility with the old arrangement.

The repairs made last year in the Centre building have done much to relieve a rather unsatisfactory state of affairs in that locality.

The crying demand this year comes from the South Easton district. More room is needed. The recitation room, where the assistant has to do her work, is small, insufficiently heated and ventilated and is really a menace to the health and well-being of teacher and pupils. Either the present building should be enlarged so as to give more room or a new building take the place of the old one. In either case, the heating, ventilating and lighting must receive the intelligent attention which their importance demands. If no other changes are made there the coming summer, at least new heating apparatus is imperatively demanded.

Would it not be well to stop patching and begin new from the foundation?

One word on lighting may be allowed. The best authorities on this subject agree that nothing can be much worse for the eyes than using them in cross lights. This is the condition in all buildings where the windows are placed on opposite sides

of the room with no rear lighting. It cannot be urged too strenuously that light should be admitted on the left and in the rear, with emphasis on the left light. The glass should equal one-sixth of the floor space, with an increase if there are obstructions to the natural light. How many of our buildings meet this requirement?

Much of the trouble occurring in school may be traced to the morbid, restless and over-sensitive condition of teacher and pupil, resulting from vitiated air, improper lighting and badly adjusted seats and desks. It has seemed to me that the thought of the child flows on in about the same level as the channel in which he is borne.

If so, the question of vitiated air must have a tremendous influence on the mind and morals of its victims. Let me urge, then, the need of our pupils and correct, where necessary, every sanitary defect in our buildings.

In my last report, attention was called to the needs in the Oliver Ames High School. This need was met by Mrs. Anna C. Ames, who provided at her own expense artistic interior decoration of all its walls and ceilings. We can now proudly say that no finer high school building can be found anywhere than the one we have at North Easton.

At that time, as the representative of the schools of Easton, in behalf of all concerned I extended thanks to Mrs. Ames, and now in this public manner, I desire to renew them.

There is a growing feeling that many of our children come to school at too early an age and thereby incur lasting injury, mentally and physically.

The state, by its educational representatives, is recognizing this peril and has wisely placed the compulsory age at seven years. Many people are led to believe that five years is the age when the school authorities are obliged to receive all children who apply for entrance to our schools. This is an error to be corrected. Personally, it seems to me that from four to

six are Kindergarten ages and that a child of six is none too old to enter upon the real work of the schools. Let the child develop until that age as nature intended, and, in the long run, we shall find a stronger development mentally and physically. At the early age at which many of our children enter school there is greater need of nurses than teachers to minister to their wants.

Perhaps the greatest injustice, in a general way, ever inflicted upon a growing child is too rapid promotions resulting, sooner or later, in a dwarfed mental development. The teachers and school officials are most anxious to keep the child moving on grade by grade, but realize if the work of a certain grade cannot be comprehended, the impossibility of improving the conditions by placing the child in a higher grade with harder tasks to master. The real secret of normal development must be the suiting of the tasks to the powers of the growing child.

I desire to emphasize this one fact, that every person must earn his own promotion. In school, it is the duty of teacher and school officer simply to certify whether the mental development of a given child warrants still harder work or necessitates a longer period of study to make possible further advancement.

The fact is, then, patent that every child makes his real promotion possible. We certify to the facts in connection with his work.

The accompanying tables and lists show an improved attendance. It will be seen that nearly twice as many were neither absent, tardy nor dismissed in 1901-02 as in 1900-01 and that the percentage of attendance is increased accordingly. This is a hopeful sign and shows that our young people are beginning to realize that if they would earn their promotion, one of the essentials is constant attendance.

Comparisons made this year with my former years show

that greater interest is being manifested along almost every line of endeavor.

I think the fact is generally recognized that all work left undone or poorly done must be thoroughly mastered before a pupil can go out with his class. The charge is often made that there is danger of working our children too hard. During more than twenty years of experience, with a chance for constant observation, I cannot recall a case where a child has been obliged to leave school as a direct result of over-study. In many cases of physical and mental breakdown, it has been possible to find either improper school equipment, badly adjusted desks and chairs, vitiated air, improper lighting and heating, unsuitable clothing, unwholesome food, or social distraction resulting in exposure at late hours and too little sleep, combined or singly, the real cause of this lamentable failure on the part of an increasing number of our young people. The school is too often a scapegoat for multitudinous shortcomings of its patrons.

I spoke somewhat at length, in my last report, of the adjuncts to our usual school work. My only excuse for continuing that course must be found in the fact of the importance of the work. The industrials which are provided for by the "Oakes Ames Fund" are all doing a noble work educationally as well as a work of vast utility.

The fact that nothing except the best endeavor satisfies the teachers in the sewing school is constantly calling for the best in the mental make-up of the pupil, which must result in that habit of mind so essential of always giving the very best at one's command.

Two hundred twenty-one girls have attended the sewing classes this year who have three hundred fifty-two finished articles as the outward expression of the mind training they have received.

Since the Sloyd work appeals to me so strongly, I am in-

clined to give its teacher, Miss Lundgren, a chance to speak for herself as follows:

"The Sloyd work this year presents little difference from last year's record, except for the fact that the work of the fifth grade has been so modified as to give to the sixth grade the privilege of having one lesson a week, instead of as before only one in two weeks. The consequence is that the boys are, as a rule, making rapid headway. Instead of two models last year, we have made in the same course of time four to five models, representing almost three times as much work, as each advancing model takes longer time for its accomplishment; and the work is on an average of a higher quality. It will be interesting next year to make a comparison between that class, which will have had no previous training, and this one, which has had a lesson once in two weeks in the fifth grade.

The seventh grade is doing very well, and is enjoying the reputation of having the highest monthly percentage for conduct. This, of course, also influences the standard of workmanship as well.

There is a larger number of boys in the eighth grade this year than usual, and we have some smart workers among them. But the ability for work, as a class, is very uneven; which, however, is of less hindrance here as each one is allowed to proceed without regard to his comrades. We notice an encouraging amount of independence in the way most of these young workmen go about their tasks.

Our graduating class forms a pleasant little group of five. Almost too small a number for stimulation of interest from a competitive point of view. But, though there will be few models to show for what we have learned and done, the two hours a week with thoughts and tools will surely not fail to leave a helpful impression upon the minds of its members. It is, indeed, not to the models in wood that we would point, when we advocate the Sloyd work. One who has observed the boys

### Braintree Sox bound for world tourney

BRAINTREE — The Braintree White Sox, three-time Stan Musial New England and North Atlantic champions, have been invited to represent the Cranberry League in the prestigious World Invitational baseball tournament at the end of August in Grand Forks, British Columbia.

The White Sox, who finished third the last two years in the Stan Musial World Series, have to raise around \$20,000 to make the trip. They have scheduled a golf tournament for June 26 at Ponkapoag Golf Course in Canton and are seeking corporate sponsorship for each hole on the two courses, and welcome all donations to help defray the costs.

For further information, contact White Sox manager Bob Zanca at 617-843-3574.

not  
only plays the center  
position on the ice,  
but he is also the nu-  
cleus of the team.

"Dave is the type  
of player who can  
lead us into the tour-  
nament. He's the  
center of a strong first line, and it's been a while since we've  
a player like that here," praised Silver Lake hockey coach  
Donovan.

"I am coaching a great core bunch of kids this year. Last  
season, we won only five games, so I'm hoping for success this  
season."

Success may be in store for the Lakers if their recent per-  
formances continue. Thus far Silver Lake has a record of 3-1  
winning three straight games. Hobbs, much to the coach's  
astonishment, has led the way offensively.

In the first five games Hobbs has already scored seven goals.

about their work, will soon come to the conclusion that the external object is but the sign for what is going on "inside;" that while the board is being *squared*, the mind is growing "*square*" as well, and that in forming a graceful curve in an object, the grace in thought is being awakened to perceive beauty wherever it appears."

Mr. J. E. Shepardson, Instructor of Vocal Music, has served the town long and faithfully with no apparent diminution of his energy.

He asks for certain changes in books which, it seems to me, the Committee would do well to grant.

He speaks as follows in reference to his work:

"I am glad to report steady improvement in the study of music in all the schools. The improvement in the North Easton schools, while satisfactory, has not been so marked as in the other districts. The work in the ungraded schools has been much in advance of any previous year. These schools should be encouraged by having new supplementary music. The price is small, not more than ten or twelve cents per copy, and it would be a great benefit to present something entirely new occasionally. When scholars remain so many years in the same room, the songs become so familiar that they finally cease to be attractive. They are really of little value for teaching material, when they are already half learned by rote.

This is the condition of affairs in the High School, also. The work here is not satisfactory, because the songs are so familiar that it is almost impossible to make any of them fresh and attractive. The book which we are using was introduced a number of years ago, and the songs have been sung over and over, until the pupils are heartily tired of them. Nothing can be accomplished in music if enthusiasm is lacking and nothing more quickly promotes enthusiasm than new music.

In all the schools, more individual work has been done this

year than ever before. A large per cent. of the pupils have sung alone. I am especially pleased with the readiness of the boys in this particular. Their willingness to do individual work has been remarkable and should be commended.

Individual work shows errors much more plainly than class work, and affords better opportunities to present the needed exercises for the correction of faults.

In a number of the rooms the pupils have just commenced to write scales; this exercise will assist in learning the different scales and in modulation. It will prove a beneficial study."

The fact that Miss Ratsey is with us year after year speaks conclusively of her standing and of the place Art Instruction holds here. She gives the outline of her work as follows:

"In September and October we take up nature drawing; color work and landscape composition; in November, December and January, constructive drawing, including geometric figures, working drawings, animal and figure drawing and constructive designs; in February and March, object drawing, comprising principles of sphere, half-sphere, cylinder, cube, square prism, square plinth, triangular and hexagonal prisms, with composition of color values in common objects; in April, May and June, design, embracing order, rhythm, consistency in measure, balance and harmony and applied design.

Our aim throughout all branches is to create in those under our supervision an intelligent discernment and appreciation of the beautiful;—"to make more general the knowledge of wherein beauty lies, and to awaken a love for it, by an acquaintance with its principles and their applications, and to lead to a desire for the acquisition of power to create and use the artistic for human enjoyment and benefit.'

It is a regrettable fact that the time allowance is so meager—by the addition of four rooms in the Grammar School, the lessons for both Primary and Intermediate grades have, of

necessity, been reduced to one fifteen-minute period in two weeks.

The size of the High School classes is very encouraging and the interest taken in the work surprising, when we consider that it is an elective study and the time allotment but one forty minute period a week. Still, our exhibition in the spring showed much honest effort on the part of the children and many thanks are due the teachers for their hearty co-operation and never-failing interest in the subject.

The Kindergarten Principal, Miss Withington, is becoming a little uneasy at the prospect of the over-large attendance for the Spring term and suggests that it would be much better if the time for entering her school could be made September and January at the beginning of the terms. The children entering in April accomplish little the first term and are a source of confusion to the program for the year and hinder to quite an extent those who are working toward promotion in June. All who come will be cared for, if possible, but we feel it would be much better if the above suggestion were heeded.

The work in this department has been, for the entire year very satisfactory to the Superintendent. It is very agreeable to feel that the little ones are in so safe hands.

Certainly Miss Withington is to be congratulated on the assistants provided for her. Miss Ethel Copeland resigned during the year, and soon after became Mrs. Briggs. I can pay no greater compliment to Miss Barrows, who succeeded Mrs. Briggs, than to say that she has been found in every way a worthy successor.

Miss Maude McCarthy, who still has charge of the girls in their Physical Culture exercises, needs no special mention as she has already demonstrated her marked efficiency. She gives the following outline of her work.

"The girls have been eagerly anticipating the opening of the gymnasium. The Ling System of Swedish Gymnastics

will be taught, this being the system adopted by the public schools of Boston and New York for a number of years. The correct posture of the chest is the dominant principal of this system, and this means a flat back, erect carriage and good health in general. For the more advanced classes there is fencing, club-swinging and Gilbert's method of æsthetic dancing. Basket ball continues to hold its own as the most popular game and a number of interesting games have been arranged to be played with local teams.

The pupils of the High School and of the Eighth and Ninth Grades of Grammar exercise in the Gymnasium three afternoons a week. From time to time, exhibitions of the gymnastic work will be given, showing the progress of the pupils."

During the past year a new gymnasium, with band room attached, has been built by Mrs. Anna C. Ames. This building, erected on land donated by the O. Ames & Sons Corporation, is in close proximity to the schools of North Easton and is very fine in all of its appointments. It is an ornament to the town and in every way worthy of its generous giver. The boys of the High School and those of the eighth and ninth grade Grammar are receiving the benefit of athletic training under the direction of Mr. H. S. Pratt, the director of the Gymnasium, who is a graduate of Brown University, and brings to his work an intelligent understanding of the individual needs of the pupils. This work is so arranged as not to interfere with the regular school studies. Although this department is not under the direct control of the School Board, yet the pupils are enjoying this rare opportunity without care or expense to the town.

Mr. Pratt gives the intent and purpose of the work as follows:

"A course in Physical Culture is given to all the boys of the North Easton High School and two upper grades of the

Grammar School. It is a course of regular and systematic training, which, besides being interesting to the boys, will tend to build up their bodies and keep them in condition, so that they may be able to do their work easier and better.

Three afternoons a week are devoted to regular class work in the gymnasium and this work consists of the following drills:—Calisthenics, Dumb-Bells, Indian-Clubs, Wands and Single-Sticks. Besides these drills, wrestling, fencing and work on the apparatus are taught.

Outside of the regular class work in the gymnasium, athletic teams are formed under the direct supervision of the instructor, and hence, competent instruction is given the boys in all the outdoor sports, such as Foot-ball, Base-ball, Basket-ball, etc. Track Athletics will also receive its share of attention and competitive dual meets will be arranged every spring.

All students will be examined and measured and each will receive a measurement chart whereby he can see for himself the strong and weak parts of his physique; furthermore, the instructor will be able to see what each boy needs as regards kind and amount of exercise."

The musical attainments of those who form the Oliver Ames High School Band may well be a source of pride to the found in the state. Mr. Brenton, its director, deserves special people of Easton. Probably no better amateur band can be mention for the masterful way in which he leads, instructs and disciplines. His assistants, Messrs. Kenfield, Bettony, Dodge and Sower, have ably seconded his labors and are in every way worthy of their leader.

Mr. Brenton thus speaks of work of the Band:

"The progress of the Band has been steady, each ensuing year finding them playing a more difficult grade of music, from simple marches of two years ago, the repertoire now includes selections from the operas and standard overtures. They are

equipped with every instrument used in the modern military band. It has been the aim of the instructors to have the boys produce quality and not quantity of tone. The result is shown in the ensemble playing, perfect time and beautiful tone color. The blatant playing so closely associated with the amateur band has never been a part of the Oliver Ames High School Band,—the boys producing a light, but clear, singing tone."

In closing this report, I wish to recall very briefly two of the exceptional advantages which our young people enjoy. The new gymnasium, so admirably equipped, and its excellent instructors cannot fail to make their beneficiaries stronger, healthier and more self-controlled.

A large percentage of the High School pupils and a number of the Grammar students are having a musical training, the best that can be given, by the most efficient instructors it is possible to procure. In addition, it is the hope of Mrs. Ames, the generous provider of these advantages, to establish a sort of club life for the young people in which only the purest morals may be inculcated. This will have in it all a constant tendency to lead those coming under its benign influence, to higher planes of thought and action.

It should be the purpose of all who are benefitted, whether superintendent, teacher, or pupil, to be worthy of the unselfish interest of our kind benefactress.

It is a pleasure to recall your kindness and that of all the citizens, as well as the confidence you manifest.

Respectfully submitted,

O. C. EVANS,  
*Superintendent of Schools.*

# APPENDIX.

---

---

# RULES AND REGULATIONS

## OF THE

### PUBLIC SCHOOLS OF EASTON, MASS.

---

#### I. IN RELATION TO THE TEACHERS.

SECTION 1. Teachers shall in all cases be elected by the Committee.

SEC. 2. Whenever a teacher, in any school, is temporarily absent, the Superintendent may appoint a substitute.

SEC. 3. In June, annually, the Superintendent shall recommend the amount of salary to be paid to each teacher, and the committee shall then fix the salaries for the year ensuing.

SEC. 4. Teachers shall be present fifteen minutes before the school session begins, and shall observe a strict punctuality in the opening and closing of their schools.

SEC. 5. Whenever teachers are unable to attend to their duties they shall immediately notify the Superintendent.

SEC. 6. Teachers may detain pupils for a reasonable time after the close of a school session for the purpose of discipline or to make up for failures in recitation. All cases of corporal punishment shall be recorded and submitted in a monthly report to the Superintendent.

SEC. 7. For continued and stubborn resistance to authority, a teacher may suspend a scholar and shall report the case to the Superintendent, at the same time giving notice to the parent or guardian.

SEC. 8. For every case of absence, tardiness or dismissal from school before the close of a session, a written excuse may be required of the parent or guardian.

SEC. 9. In any building where there is more than one teacher—or more than one school, the Principal teacher—or the teacher of the highest grade, shall have the supervision of the conduct of pupils on the stairs, in the corridors and in the school yard.

## II. IN RELATION TO THE PUPILS.

SECTION 1. No child under five years of age shall be admitted to the public schools except by permission of the Superintendent.

SEC. 2. New classes will be formed in the lowest grade at the commencement of the Fall and Winter term. No children will be admitted at other times to this grade. This does not apply to the kindergarten.

SEC. 3. Children whose parents or guardians are non-residents, shall be admitted to the schools only by the consent of the committee.

SEC. 4. Whenever a pupil defaces any part of the school premises, or injures any school property he shall be liable for all damages.

## III. THE SCHOOL CALENDAR.

The Scholastic Year shall commence the Tuesday after the first Monday in September. The terms and vacations are as follows:

SEC. 1. High School, Fall term, 16 weeks; vacation, 1 week; winter term, 12 weeks; vacation, 1 week; spring term 12 weeks. Other schools, fall term, 15 weeks; vacation, 2 weeks; winter term, 12 weeks; vacation 1 week; spring term, 12 weeks.

SEC. 2. In addition to the legal holidays, the schools may be closed on one day of the Agricultural Fair at Brockton, and on two days each year for the purpose of allowing teachers to visit schools and to attend educational meetings.

The High School may be closed during the session of the Annual Town Meeting. No school shall be suspended on any other day, except on some sudden emergency, without permission of the committee or Superintendent.

SEC. 3. The session of the High School shall be from 8.30 A. M. until 1.30 P. M.

For all other schools the morning session shall begin not later than fifteen minutes past nine o'clock, and the afternoon session shall begin not later than thirty minutes past one o'clock.

The school day shall occupy five hours, exclusive of recesses.

SEC. 4. The time of opening and closing the sessions in any school shall not be changed during a term, without the approval of the Superintendent.

RUTH GILMORE.

CLASS ODE,

CLASS OF 1902.

**Class Ode.**

Farewell, ye golden school-days,  
Bright mem'ries of the past;  
Sweet day-dreams where no shadow  
Upon our lives were cast;  
O'er daily scenes so pleasant  
Affection weaves a spell;  
The lips reluctant utter  
The sad refrain, "Farewell."

'Tis sad the bonds to sever  
Of Friendship, tried and true,  
To speak the word of parting  
To bid the fond adieu;  
The lips with anguish quiver,  
Unseen the tears will swell;  
As from the heart we utter  
"Farewell." dear friends, "Farewell."

**GRADUATES.**

Louise Emilie Canegaly,  
Winifred Bernadetta Cunningham,  
Mary Ella Ellis,  
Mary Veronica Fitz Gerald,  
Grace Viola Gardner,  
Ruth Gilmore,
